Address: Riesengebirgsstraße, 80993, Munich, **Date of Birth:** 1 December 1991, **📷:** @SalehAly

Work Experience

| | |
|----------------------|--|
| PRESENT JUL 2017 | Junior Software Developer at CHECK24 Vergleichsportal GmbH, Munich <ul style="list-style-type: none">- Developing new loan products for Kredite24 using Dockerized Micro-services with Spring-Boot as its back-bone.- Using Redis for caching, ActiveMQ for pub-sub messaging, and Postgres as database.- Kubernetes for high availability, fault-tolerance, and scheduled jobs.- Using Jenkins to build and deploy Docker containers to Kubernetes clusters. |
| MAY 2017 OCT 2015 | Work Student Back-end Software Engineer at IDgard.de, Munich <ul style="list-style-type: none">- Implemented a proof of concept JAX-RS back end that is at least twice as fast than the current one.- Ran several performance and stress tests using Apache JMeter- Researched on how to write a new API specification that is RESTful using current trends in technology swagger.io.- Participated in a research in order to transfer our back-end into Micro-services with Message queues. |
| OCT 2015 MAY 2015 | Work Student Java Developer at HRForecast.de, Munich <ul style="list-style-type: none">- Enhanced an analytics tool mainly written in Java with Vaadin framework.- Refracted the code base since it lacked extensibility and scalability. |
| MAR 2015 SEP 2012 | Back-end Software Engineer at Bey2ollak, Cairo <ul style="list-style-type: none">- Had hands on multiple web and database servers, maintained back-end requests adding more features and solving problems (bugs).- Transferred MySQL database into SAN storage, used JMeter for functional and load testing, benchmarked MySQL using sysbench.- Developed many JSP tools and wrote bash scripts to dump the database and synchronize the logs to other servers.- Participated in a research for handling big data using the ELK stack. |

Education

| | |
|-------------------------|---|
| JUNE 2017 APRIL 2015 | M.Sc. Informatik Student, 4rth Semester Technische Universität München (TUM), Germany <i>Major: Software Engineering, Minor: Distributed Systems</i> GPA: 1.8 |
| | M.Sc Thesis, Context-Sensitive Pervasive Computing for Smart Cities Topic repository - Keywords: #Pervasive Computing , #Context Sensitive , #IBM Node-red GRADE: 1.3 |
| JULY 2013 JULY 2008 | Bachelor Degree in Computer Science and Engineering, The German University in Cairo, Cairo Faculty of Media Engineering and Technology Department of Computer Science and Engineering GPA: 1.86 |
| MAY 2012 MAR 2012 | B.Sc Thesis, The University of Ulm, Germany Faculty of Computer Science, Department of Software Engineering and Compiler Construction. GRADE: A-/A |

Highlights

| | |
|----------|---|
| PROJECTS | Algorithms For Programming Contests: Learned new efficient algorithms widely used in programming contests and optimizations. |
| | IOS Praktikum: Participated in CHEST ; A Cyber-Physical System that provides live health data to action forces in critical situations. Learned Swift 2.0 and Implemented a back end system using Node.js , MQTT and MongoDB . |
| | Software Engineering for Business Applications: Used Play framework in order to implement a business case after creating a Business Model Canvas and Value Proposition Canvas . |

Programming Knowledge

| | |
|------------------|---|
| Excellent | Java, Spring, JPA, MySQL, Postgres, Unix/Linux, GIT, Maven, Jenkins, Docker, Node-Red, CI, CD. |
| Good | Redis, ActiveMQ, Kubernetes, Google Guice, Swagger, Load Testing "Jmeter", Logstash, Kibana (ELK Stack), PHP, Javascript, Nodejs, MongoDB, Vaadin, Jquery, JqueryUI, Bash Scripts, \LaTeX |
| Fair | Python, Swift, Android, ElasticSearch |

Languages and Courses

English: Fluent, **German:** Good Knowledge **B1**, **Arabic:** Mother Tongue

Tech. Interests

Microservices, Reactive Manifesto, Internet Of Things, New programming languages, Scalability, Security.
